*Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-3, drawn to process for making resorcin 2,4,6,-trisulfonate, classified in class 562, subclass 45.
- II. Claims 4-6, drawn to a process for making 2-sulfonic acid-4,6-dinitroresorcin, classified in class 562, subclass 62
- III. Claim 11 and 14-18, drawn to a method for making 4,6-diaminoresorcin, classified in class 564, subclass 305+.
- IV. Claim 12, drawn to a production method of polybenzobisoxazole, classified in class 548, subclass 215
- V. Claim 13, drawn to 2-sulfonic acid -4,6-dinitroresorcin salts, classified in class 562,, subclass 62.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and V are related as process of making and product made.

The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different process .

3. Inventions I -V(excluding the combination II and V) are unrelated.

Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are drawn to processes for making patentably distinct compounds.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Mr Robert Mukai on 8/26/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
